## MicroMag Pad Assist

GENERAL	
Machine shall be of the type generally described as a battery-powered "automatic":	Factory Cat
The specific model and size should be:	MicroMag 20"-D
This bid defines a self-propelled machine that wet "scrubs and dry" vacuums a path of: For expedited parts delivery, machine shall be made in:	20"
For expedited parts delivery, machine shall be made in.	United States
The machine contains separate tanks for solution and recovery water, with a minimum capacity in each tank of:	10 gallons
SOLUTION TANK	
The solution tank shall be made of heavy gage (.3125") polyethylene plastic. Dual fill ports, with one at the front of the machine and a second at the rear. Solution screen must be stainless steel and located, with the check valve, on the scrub deck permitting top access. The solution tank specifically must hold a minimum of:	10 gallons
RECOVERY TANK	
Recovery tank shall be made of polyethylene, that is a minimum thickness of (.3125"). Tank shall be designed to be easy to clean, with complete access to the recovery tank's floor, wherein the entire inside and floor of the tank	
is visible and reachable. A heavy duty, discharge control, 1.5" diameter drain hose shall be supplied, made of latex rubber. To simplify access for planned maintenance, tank must include:	"Tip Back" feature
Recovery tank must include "Drain Saver" basket, to collect all liter in the recovery water, to keep discharge water	
from clogging floor drains. Drain saver basket must be constructed of stainless steel, with 1/4" mesh screen, and be removed without tools or loose fasteners. Tank Capacity of:	10 gallons
	10 50000
BRUSHES/PADS	
For preferred maneuverability and productivity the machine shall use:	1 disk brush
Scrub brushes shall be:	Qty: 1 @ 20"
For preferred cleaning performance the machine's scrub brushes should operate at:	270 rpm
BRUSH HEAD	
To reduce the stress on the operator, the machine's brush head shall be raised and lowered by an ergonomic foot	
pedal:	Foot Pedal
BRUSH MOTOR The scrub motor shall be heavy duty, permanent-magnet DC:	(Qty: 1) .75 hp / 270 rpm
The series motor shall be neavy duty, permanent magnet be.	(Qty. 1)./5 hp/ 2/0 hhi
VACUUM MOTOR	
The vacuum motor is to be protected with a ball and stainless screen system wherein the ball reacts to the level of foam inside the tank and shuts off air flow to the vacuum motor. The vacuum motor must be 3-stage and rated at:	2 Stage / SEO watte
	3-Stage / 650 watts
SQUEEGEE	
Squeegee shall move when the machine turns to control water. It shall be protected against impact with "Non-	
Marking" 4" diameter, side wheels, and a breakaway feature. For preferred water recovery, the squeegee shall have a minimum width of:	28"
	20
DRIVE SYSTEM	
Shall be equipped with a drive motor of:	0.35 hp
For preferred stability and traction, unit shall be prepelled by:	All-Gear Sealed Transaxle

MicroMag 20"

TIRES / CASTERS For preferred machine stability, only machines with a 4-point stance will be acceptable. Machines will 3-point	
stance will not be considered.	4-Point Stance
Front casters shall be solid, non-marking and size minimum of: Rear caster wheels shall be solid, low rolling resistant, non-marking and size minimum of:	Qty 2: 2.5" dia x 1.5" wide
Real castel wheels shall be solid, low folling resistant, non-marking and size minimum of.	Qty 2: 8" dia x 2" wide
BATTERIES	
Scrubber shall include at least 2 batteries, to form a minimum of 24-volt DC system. Batteries must be located in a	
12" tall, plastic battery tray to contain any and all fluids. The battery size must be a minimum of:	85 ah
For extended run time, optional battery upgrade should be quoted in the size of:	130 ah / 12 amp
CHARGER	
Charger shall be "shelf mounted", and fully automatic type, running on 110-volt / 60-Hz / AC power. It shall	0
provide a minimum of 24-volt DC output of:	8 amps
CONTROLS	
A button control system shall be situated within the metal handlebar, arranged to allow operator to engage forward speed with the fingers of either hand. For operator ease and more stable control, the speed control must be a separate control. Twist grip controls which govern direction change along speed, will not be considered.	
The squeegee shall be lifted and lowered by a simple lever, with the vacuum operating whenever the switch is engaged. To more completely dry the squeegee hose, and reduce discharge back onto the floor, the hose shall	
have a:	Trap
DIMENSIONS	
DIMENSIONS Machine maximum dimensions shall be:	(42"L x 21"W x 39"H)
	(42"L x 21"W x 39"H) 356 pounds
Machine maximum dimensions shall be:	
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION	
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist	356 pounds
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION	
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist	356 pounds
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist corrosion, and of a thickness of at least:	356 pounds
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist corrosion, and of a thickness of at least: This heavy gage frame shall fully support the weight of the batteries, the tanks, hold the scrub deck rigid and	356 pounds 10-gage (1/8")
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: <b>CONSTRUCTION</b> For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist corrosion, and of a thickness of at least: This heavy gage frame shall fully support the weight of the batteries, the tanks, hold the scrub deck rigid and locate the casters and transaxle. For future ease of service, all of the fasteners on the scrubber shall be made of: No machine with casters or transaxle mounts that bolt directly to the tanks will be acceptable.	356 pounds 10-gage (1/8")
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist corrosion, and of a thickness of at least: This heavy gage frame shall fully support the weight of the batteries, the tanks, hold the scrub deck rigid and locate the casters and transaxle. For future ease of service, all of the fasteners on the scrubber shall be made of: No machine with casters or transaxle mounts that bolt directly to the tanks will be acceptable. OTHER FEATURES / OPTIONS	356 pounds 10-gage (1/8") Stainless Steel
Machine maximum dimensions shall be: Machines maximum weight (including batteries) shall be: CONSTRUCTION For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist corrosion, and of a thickness of at least: This heavy gage frame shall fully support the weight of the batteries, the tanks, hold the scrub deck rigid and locate the casters and transaxle. For future ease of service, all of the fasteners on the scrubber shall be made of: No machine with casters or transaxle mounts that bolt directly to the tanks will be acceptable. OTHER FEATURES / OPTIONS Non-Marking Tires	356 pounds 10-gage (1/8") Stainless Steel Standard
Machine maximum dimensions shall be:   Machines maximum weight (including batteries) shall be: <b>CONSTRUCTION</b> For preferred durability and longevity the scrubber's main frame shall be made of a steel, powder-painted to resist corrosion, and of a thickness of at least:   This heavy gage frame shall fully support the weight of the batteries, the tanks, hold the scrub deck rigid and locate the casters and transaxle. For future ease of service, all of the fasteners on the scrubber shall be made of: No machine with casters or transaxle mounts that bolt directly to the tanks will be acceptable. <b>OTHER FEATURES / OPTIONS</b> Non-Marking Tires   E-Stop	356 pounds 10-gage (1/8") Stainless Steel Standard Optional
